

TO RESTRAIN GOV. TAYLOR

Judge Cantrill Issues an Order of Injunction This Morning.

BLACKBURN IS LEADER

Mr. Goebel's Physicians Report That Their Patient is Improving Hourly.

LAST NIGHT WAS ONE OF TERROR IN FRANKFORT.

There Was a Good Deal of Drinking, and Stray Shots Were Fired All Night—Taylor Will Resist the Civil Courts, and Bloodshed Seems Inevitable—Deputy Sheriffs Likely to Come in Conflict with Militia—Republicans Plan for Legislative Meeting in London—The Tangle is Growing Thicker Every Day.

Frankfort, Ky., Feb. 3.—[Special Telegram]—Shortly before noon today Goebel had an alarming sinking spell. He has designated Lieutenant Governor Beckham to act as governor. The democrats have established their own government in earnest in a room in the Capitol Hotel adjoining Goebel's. The injunction granted this morning was only temporary and holds only until 8 o'clock Monday morning. Gov. Taylor's friends are alarmed over the appearance of an unknown man armed with a Winchester rifle around the governor's mansion last night. Goebel at 3 o'clock suffered another relapse. His condition is serious.

London, Ky., Feb. 3.—[Special Telegram]—Three cases of Springfield rifles and several boxes of ammunition were unloaded here today. They were consigned to J. L. Powers, brother of Kentucky's secretary of state. The war material was sent here from Williamsburg and more is expected. Three life insurance agents are in the city doing a land office business writing up policies.

Frankfort, Ky., Feb. 3.—[Special Telegram]—Judge Cantrill this morning granted an order of injunction restraining Gov. Taylor and his adjutant general from interfering with the assembly. Senator Blackburn arrived this morning from Washington and his appearance caused a flurry. He immediately called upon Goebel.

Was a Night of Terror. Friday night marked a reign of terror in the streets of Frankfort that ended only when all the lights were put out. Stray shots were fired at intervals up to 2 o'clock this morning. There was more drinking than is usual Friday night. There was no legislative activity today. Few members of either party remained in the city. Some of the democratic members who are here will be arrested and taken to London and they remain in hiding.

Democratic leaders declare that the democratic members will be on hand to hold a regular session of the assembly next Monday in Frankfort. There is some suspicion that this announcement is a ruse to throw the militia off and that the democrats will hold a session in Louisville.

Mr. Goebel's physicians announced this morning that he had passed through his worst night and that he is improving hourly. Blackburn to Take Command. The democratic camp will spend the next two days in preparation for active war. Senator-elect Blackburn reached here from Washington today to become the advisory head of the claimants. He brought a full report of the conference with the president. Urgent calls for Blackburn were sent last night. "We need a man here," argued the Goebel men, "to whom the democrats can go and get instructions. Then they will get out and do just what is ordered."

New Theory of Goebel Shooting. Officers of the Louisville companies have agreed that but one shot was actually fired at Goebel, although they admit that five shots in all may have been discharged. It is their belief that the sharpshooter who shot Goebel was in the third story window of the executive building. It is their theory that the other four shots were fired in the air from a place of concealment back of the building, the purpose of the separate shots being to confuse

those who heard them and divert suspicion from the actual assassin. It is supposed that the plotters hoped by firing five shots to give the impression that a pistol was the weapon used and thus withdraw suspicion from the rifleman in the executive building.

Goebelite Regiments Forming. Telegrams continue to pour into the democratic headquarters here asking for permission to bring the Goebelite forces to Frankfort. A dozen military companies are being organized in all parts of the state in the belief that Gov. Goebel will authorize their equipment and order them to Frankfort. Covington, Goebel's home, is in a fever of excitement, and armed partisans are fretting for permission to come to their leader's assistance. Two companies of volunteers have been organized and it is admitted now that if Gen. Castleman will accept the adjutant-generalship steps will be quickly taken to organize several regiments of state troops. In this event Taylor's army will be confronted by a Goebel army and bloody results would almost surely follow.

Ammunition for the Militia. The spirit of the soldiers now here is extremely warlike. They are nearly all Taylorites; they are angered by the jeers and curses of the people of Frankfort and will fight desperately at a word from Gen. Collier, whose belligerent methods are the pride and boast of the whole militia. Two wagonloads of ammunition arrived last night and were unloaded in the statehouse yard. The executive, legislative and adjacent buildings have been turned into fortresses.

The armed mountaineers are now equipped with state uniforms and blankets, and except for their long squirrel rifles and awkward demeanor cannot be distinguished from the Kentucky guards. Twenty-Eight Sheriff Volunteers. Sheriffs in twenty-eight different counties have reported to Colonel "Jack" Chinn with the query as to whether or not "help was wanted." Telegrams and letters are coming in from dozens of points in the state offering companies of men for a Goebel militia and asking for certificates.

Drill With Old Cannon. Down at the state penitentiary, where Eph Lillard of the claimant faction has control, an old cannon has been pressed into service and the Goebel volunteers drilled there today, whiling the gun here and there and figuring out how best to protect the inclosure.

KENTUCKY MUDDLE STILL GROWS

Contestants Are Waiting For Moves On Political Checkboard. Frankfort, Ky., Feb. 3.—Affairs of state are still in a muddled condition. Each of the two state governments is quiescent, temporarily, at least, evidently waiting for the other to make a move.

The democratic members of the general assembly held a meeting Friday night on the second floor of the Capitol hotel, within fifty yards of Senator Goebel's chamber, and again went through the form of electing the wounded leader for governor. Fifty-four representatives and nineteen senators were present, and the plan suggested by Mr. Goebel was carried out to the letter. As on Wednesday night, the majority reports of the contest committees declaring Goebel and Beckham to be governor and lieutenant governor respectively, were adopted. But this time there was a ballot as prescribed by law. The meeting was in the rooms which have been used as democratic headquarters, despite the announcement by Gov. Taylor that he would take charge of the Capitol hotel if Proprietor Weitzel permitted a session of the members of the legislature to be held there. Both houses balloted jointly and separately on the reports, and afterward re-elected Miss Pauline Hardin as state librarian. The bodies then adjourned until Monday.

Reward for Goebel's Assassin. It is understood that resolutions have been drawn up by the democratic committees of the legislature offering a reward of \$50,000 for the arrest and conviction of the man who attempted the assassination of Goebel.

Senator Barrett of Louisville has called a meeting for a republican caucus, of which he is chairman, to be held in London Monday afternoon at 4 p. m. This tends to confirm the report that all republican legislators will be there Tuesday for the meeting of the legislature. This is their purpose, and they began leaving Frankfort Friday night preparatory to going to Laurel county.

Significant Step Taken. It was learned late Friday night that the arrest of Alonzo Walker, while attempting to serve notices on Gov. Taylor and Adj.-Gen. Collier, is a most significant step. He is charged with treason and attempting to influence soldiers to desert Col. Mingli's command, the First regiment, Kentucky guards, and join Gen. Castleman, in case the latter accepts the position of adjutant-general tendered him by Gov. Goebel. The extreme punishment for this offense is death, and it is stated that Walker will be held and given trial by court-martial in the regular way. Walker is a Louisville stenographer, and he volunteered to perform this service for the Goebelites. His arrest under the circumstances has caused great excitement, and some of the followers of Goebel are declaring

MAY CAUSE TAYLOR TO COME TO TERMS

Pres. McKinley's Course in Refusing to Interfere in Kentucky.

NOT WITHIN THE LAW

Taylor Cannot Do Anything Except by Force, and That Is Revolutionary.

Democrats Know They Have the Whip Hand, and They Can Afford to Wait Until the Acting Governor Weakens—May Result in Two State Governments, One at London and One at Frankfort—President McKinley Highly Complimented.

Washington, Feb. 3.—There is hope among the Kentuckians here that the wise and firm action of President McKinley in refusing to interfere in the Kentucky imbroglio, on the request of Acting Governor Taylor, will quickly lead to a solution of the problem. Their theory is that, now Taylor knows, he cannot have any recognition from the national government, he will perceive the necessity of yielding in the struggle. Taylor in a Bad Position.

He has nothing but control of the militia to stand upon. The legislature is against him, the courts are against him, the national administration is against him, and public opinion is against him. He can do nothing to sustain his claims to the governorship except by force, and this is revolutionary.

Naturally, the democrats in Kentucky, possessing all the moral advantages, will carefully endeavor to preserve the peace. They have the courts and the legislature, and they believe they will win by standing their ground, refusing to compromise, and waiting for Taylor and his henchmen to get tired of carrying on the desperate and profitless game.

Don't as to Who is Governor.

Grave doubt exists here as to whether Goebel is now legally governor. The bulk of opinion inclines to the view that the action of the democratic members of the legislature in declaring Goebel elected will not stand the test of the courts. If this be true, Taylor is still governor. But it is apparent to everyone that just as soon as the legislature can meet in proper form it will declare Goebel's election, and that it will find the way to meet within a few days all the Kentuckians here believe.

The best legal opinion in Washington is to the effect that Taylor's proclamation adjourning the legislature to meet at London amounts to nothing, he having no power to do any such thing, and that the moment a majority of the members of the two houses gets together, whether that be next Monday or two weeks hence, a legal session will be held and Goebel and Beckham be declared elected governor and lieutenant governor respectively.

May Be Two Governments.

The fear is expressed that Taylor may actually attempt to convene a legislature at London and by fixing up contests for seats or by some other hocus focus have his republican members unseat Democrats and put enough Republicans in their places to give a majority of the whole. Of course this would not help him, either before the courts or in public opinion, but it is possible he may resort to such a desperate measure.

One Kentuckian expresses the opinion that a result of the present trouble will be a state government at London, upheld by the mountaineers, and by no one else, and another state government at Frankfort recognized by the courts and most of the people of the state. In time the London government would inevitably become a sort of opera bouffe affair and as soon as people start laughing that will be the end of the dictator.

McKinley Highly Complimented.

President McKinley is highly complimented by men of all parties for the stand which he has taken, and it is believed his attitude will do more than anything else to bring about a settlement. There has been a great deal of talk of a compromise between the rival factions, but it is understood here that the Goebel men, now having everything their own way, thanks to Taylor's hot headed blundering, will listen to no proposals of any nature that involve Taylor's retention of the office of governor.

Found Maxims Demoralized.

London, Feb. 3.—The first batch of wounded men belonging to the naval contingent serving in South Africa arrived in England Friday. They are mostly skilled gunners. They say that the Boers' Maxim-Nordenfledt one-pound quick-firing guns have a most demoralizing effect on the British. These guns are made in England, but they are not supplied to the British troops.

SAMAR AND LEYTE TAKEN BY KOBBE

Filipino Rebels Are Thoroughly Whipped in a Severe Battle.

TEN OF THEM KILLED

Five Cannon with Artillerymen Are Captured at Tacloban.

Venezuela Rebels Are Very Active Under General Hernandez on the Upper Reaches of the Orinoco—Governor of Bolivar Will Probably Surrender to Them—Mexicans Have a Big Battle with the Yaqui Indians—General Torres Killed.

Manila, Feb. 3.—[Special Cablegram]—Gen. Kobbe reports from Cebu that he has occupied the Islands of Samar and Leyte and engaged the insurgents at Tacloban, killing ten and capturing five cannon with their artillerymen. The Americans had no casualties.

MEXICAN GENERAL IS KILLED

Big Battle Reported With Yaquis in Bacatote Mountains.

Bisbee, Ariz., Feb. 3.—A dispatch is received here from Guaymas conveying news that Gen. Lorenzo Torres, commander of the Mexican forces in the Yaqui war, has been killed in the Bacatote Mountains. The report is lacking in detail and has not yet been confirmed.

Advices are also received that a battle was fought between the Yaquis and Mexicans on January 27, the Mexicans then being under the command of Gen. Torres. The fighting occurred on the Quaymas Desert, fifty miles east of Guaymas.

VENEZUELA REBELS ARE ACTIVE

Citizens of Bolivar Excited Over a Prospective Invasion.

Port of Spain, Trinidad, Feb. 3.—Venezuelan revolutionists under Gen. Hernandez are again very active on the upper reaches of the Orinoco. Citizens of Bolivar are intensely excited over the threatened invasion by Elmocho and his forces. It is reported that Gen. Roland, governor of Bolivar, will probably yield to the revolutionists.

BLOWS NOSE; EYE POPS OUT

James H. Finnigan of Cleveland, Has a Novel Experience.

Cleveland, Ohio, Feb. 3.—James H. Finnigan, superintendent of the shipping department of Sterling, Welch & Co., has just had a most remarkable experience. Tuesday evening Finnigan was assisting in entertaining company at his home on Melvin street. He took his handkerchief from his pocket and blew his nose. Those present were horrified to see Finnigan's left eye pop from its socket and hang by the ligaments down his cheek. One young woman fainted.

Finnigan pushed the eye back into the socket, and in doing so carried the eyelid in with it. He was blind for the time being and the pain was intense. A physician was called, but he refused to handle the case. Dr. D. B. Smith was then summoned. Finnigan was removed to the Cleveland general hospital where Dr. Smith took the eye out again and replaced it properly. Finnigan is now able to be at work; the eye is bandaged. Finnigan says:

"My physician tells me that I will be able to remove the bandage over my eye in a day or two. I take it off once in a while now. I do not dare blow my nose for fear the eye will pop out again."

The case among oculists is said to be one of the strangest on record.

MINERAL PRODUCTION IN THE UNITED STATES.

The Engineering and Mining Journal in its annual statistical number says that the preliminary statement of mineral production in the United States in 1899 shows that the total production of metals in the United States for that year was valued at the place of production at \$413,733,414, as compared with \$314,255,620 in 1898. Of non-metallic substances, the total value of the output was \$801,372,631, as compared with \$483,091,970 in 1898. Deducting certain unavoidable duplications, such as coal used in coke or iron ore in pig iron, and so on, the net value of the mineral production reached a total of \$391,424,082, showing an increase of \$151,007,332 over 1898. The gold production was valued at \$72,433,055, and the silver was 61,179,689 ounces.

BRIDGE BURNED, WITH ELECTRICITY.

A novel method of destroying a wooden bridge has recently been tried with complete success. Weighted wires are placed across certain beams and heated by means of electricity; the wires burn their way through the wood, aided by the weights, and the bridge falls.

EXCITED HER TO HYSTERIC

Brooklyn, N. Y. Husband in Court for Ticking His Wife.

Brooklyn, N. Y., February 3.—Arthur Edwards of 312 Rockaway avenue, Brooklyn, was under arrest today at the Gates Avenue Police Court charged with having tickled the soles of his wife's feet until she was driven almost crazy. Mrs. Martha Edwards the complainant, is an attractive brunette, with black eyes and a tilted nose. She looks as though she would not mind a healthy, hearty laugh under ordinary circumstances, but she strongly objected to having her risibilities excited by being tickled on the soles of the feet.

Her husband, Arthur Edwards, is a conductor on the Brooklyn City railroad. Mrs. Edwards is often asleep when her liege lord returns from registering fares and this incenses him. He proceeds, she says, to invoke the welcoming smile by tickling her into hysterics.

Edwards admitted the tickling, but said he did it because his wife persisted in being asleep when he got home. He liked to see his happy home filled with laughter.

CHAIRMAN MANLEY PICKS WISWELL

Milwaukee Man is Appointed Sergeant-at-Arms in the Republican National Convention.

Milwaukee, Feb. 3.—George N. Wiswell of this city, has been notified by Chairman J. E. Manley of the sub-committee of the republican national committee that he had been appointed sergeant-at-arms of the national convention which will be held in Philadelphia.

Mr. Wiswell is a native of Wisconsin. He was born in Lafayette, Walworth county, in 1852. He began to take an interest in politics when a young man, and soon became known as one of the leaders of the republican party in Walworth county. He was elected sheriff of that county in 1886, and organized the association of sheriffs of the state, of which he was secretary. He was appointed United States marshal for the eastern district of Wisconsin by President Harrison. When he returned from office in 1893, he organized the Fraternal Alliance, of which he is secretary and general manager.

The plan of building a municipal garbage plant has again failed, the supreme court yesterday sustaining the decision of Judge Ludwig that the last contract awarded to the Engle Sanitary and Crematory company was void. The city administration therefore finds itself where it was two years ago.

The Democratic national convention fund has reached the sum of \$78,000 and it is believed there will be little trouble in making it \$100,000, which is the sum the committee wishes to have when it goes to Washington this month to make a fight for the convention. About 100 citizens will be invited to accompany the committee to Washington.

COURT RELEASES THREE JUVENILES

Boys Arrested For Stealing Pail Candy Were Given Freedom On Their Promise to Reform.

When the case of the State of Wisconsin vs. John Griffin, Frank Fellows and Joseph McKevitt was called in the municipal court this morning Judge Fieid dismissed the action. The defendants are all juveniles and were arrested several weeks ago on the charge of stealing candy from a car in the local freight yard.

When the case was called this morning the boys and their parents were on hand. Each of the youthful prisoners stated that they intended to be better boys in the future and that if ever they want any more candy they will do anything but steal it.

When Cornelius McNarey was brought before the court on the charge of being drunk he pleaded not guilty. He will have a trial on Monday. Matthew Leonard, a farmer, went to jail for six days for being drunk.

TAKEN TO ASYLUM FOR THIRD TIME

Mrs. Eliza Fraser Pronounced of Unsound Mind By Doctors Pember and Fifeild.

For the third time within the past few years Mrs. Eliza Fraser has been declared of unsound mind and committed to the state hospital for the insane at Mendota. This morning the unfortunate woman was taken to Mendota by Officer Wallace Cochrane of this city. Miss Fraser resides fourteen miles west of this city at Cainville. Dr. J. F. Pember and Dr. George Fifeild were appointed to examine Mrs. Fraser and yesterday they drove to the Fraser home.

A Four-Legged Criminal.

A mastiff was trained to assist thieves in Paris. It was in the habit of bounding against an old gentleman and knocking them over in the street. FEAR WORST BUT HOPE FOR SUCCESS

British Are Not Cheerful in Waiting to Hear From General Buller.

BOERS ON THE MOVE

They Are Active About Ladysmith, But Their Object Is Not Known.

Report That the Transvaal Losses Were Considerable at Spion Kop—The North Cape Colony Dutch Are in Revolt, and Are Flocking to Enlist with the Free State Forces in Large Numbers—Late News From the Front.

London, Feb. 2.—[Special Cablegram]—While the public generally believes Gen. Buller is again on the move to Ladysmith there is a marked absence of that cheerful anticipation with which the British awaited the news of Buller's two previous moves. Then they were almost sure they would hear of victory, now they hope for success, but fear the worst.

A Central News dispatch from Ladysmith confirms the report that the Boers are moving. Their object is unknown. Dispatches from Spearman's Camp report that the Boers lost four field cornets at Spion Kop, seven of their guns were broken and their casualties are placed at one thousand.

Cape Colonists in Revolt

Cape Town, Feb. 3.—[Special Cablegram]—The Boers in northern Cape Colony are receiving reinforcements from the Free State. They are also being strengthened by enlistment in the republican cause of disloyal Cape Colonists, eight hundred of the latter having joined the Boer force at Dordrecht. Commandant Olivier of the Free States in a speech to the Boers at Lady Grey said his men at Stormberg were almost surrounded and unless recruits were forthcoming he would be compelled to abandon his position. Many of the Burghers who fought at Stormberg have returned to their farms and refuse to return to active service though threatened with death. Among these are some conspicuous Boers who originally invited the Free States to invade Cape Colony.

Bombard Boer Koppies

Reensberg, Feb. 3.—[Special Cablegram]—Gen. French yesterday bombarded the Koppies held by the Boers west of his position. The British had no casualties.

STILL NO NEWS FROM THE FRONT

Buller Making a Move But No One Knows In What Direction.

London, Feb. 3.—What is happening on the Tugela river is still unrevealed. The latest dispatch from Spearman's camp, January 31, says:

"Today passed quietly with the exception of the firing of a few shells from Mount Alice at the Boer positions opposite Potgieter's drift. The troops have quite recovered from their last week's fighting and are eager to resume. It is rumored in camp that the Drakensberg passes are only slightly held, and the opportunity is likely to be availed for a dash of cavalry and horse artillery."

Re-enforcing Lord Methuen.

A report comes from Cape Town that Gen. Lord Methuen is being rapidly and effectively re-enforced. Gen. Tucker's departure from Cape Town is regarded as important, and as presumably indicating that the seventh army division, which is now arriving at the Cape, will be added to the force at Modder river.

The queen received the following telegram on Feb. 2 from the mayor of Mafeking, the dispatch being dated Jan. 27:

"Mafeking, upon the one hundredth day of the siege, sends its loyal devotion to your majesty, and the assurance of its continued resolve to maintain your majesty's supremacy in this town."

It will be seen that no reference is made to the relief of the town, which, it was lately rumored, had been effected on Jan. 23.

Rations Reduced.

The latest detailed news from Mafeking is dated Jan. 17, and was sent by way of Gaberones. It shows that there had been no encounters beyond the usual long-range firing. Rations had been reduced and horses had been deprived of their oats, which were being stored for future consumption by the inhabitants of the town. Matches and all the canned meat in the place had been commandeered. The theft of these articles, even of a single box of matches, was treated as a serious crime. The people were cheerful, with the exception of a few grumblers.

MANY PHYSICIANS CONDEMN DEAD BEATS

AN INTERESTING SESSION WAS
HELD LAST EVENING.

At the office of Q. O. Sutherland a heated discussion took place. Doctors claim that many people are able to pay, but won't—Will be more strict in the future.

At the office of Dr. Q. O. Sutherland last evening the greater portion of the physicians of Janesville met for the transaction of general business. The one question of interest was to dispose of the dead beats of Janesville. That class of people who call on the physician but never pay when the bill is presented. Last evening the physicians compared their lists which resulted in the listing of many people who will be obliged to settle whenever they want the services of any one of the local physicians behind the plan.

Many of the physicians claim that certain people in Janesville are able to pay but won't. This is the class of people that will be obliged to pay when they call the doctor.

SHIP SEEDS TO ENGLAND

Local Englishman Sends a Supply to be
Planted Near Hull

Wishing to experiment with the planting of American seeds on English soil, a local resident made a good sized purchase of Walter Helms this week for shipment to Hull, England. The English gardener has always been anxious to try American seeds in his country and his friend in Janesville will anxiously await the result which no doubt will prove successful. The cost of transportation from Janesville to Hull was in excess of the original cost of the seed.

MUNICIPAL COURT PAYS WELL

During the Month of January The
Sum of \$210.28 Was Received.

During the month of January the Rock County municipal court netted the neat sum of \$210.28. This is considered a brisk start for the new year. The greater portion of this money was secured in one case.

That case was the city of Janesville vs. Josie La Mond and five local women who paid a total of \$110.66 on their plea of guilty to the charge of being inmates of a house of ill fame in the city of Janesville.

Last Night.

The entertainment given by the Woman's Auxiliary of the Y. M. C. A. at association hall last night was a pronounced success and was strongly enjoyed by the large audience present. Rev. Mr. Pence presided. The program started in with a "Toreador Song" by a brass quartette consisting of Harry North, Walter Clark, Harry Shurtlett and Arthur Claag. Miss Cora Anderson sang a love song which was well received. Herbert Adams, the blind violinist rendered several fine selections.

The male quartette consisting of Messrs. E. A. Foley, H. E. Cary, E. E. Van Pool and A. Crawford followed with a well rendered selection which was encored. Miss Amy Woodruff gave a humorous recitation "Busy" and for an encore she recited James Whitcomb Riley's "Good bye Jim. Take Keer of Yourself."

Prof. W. F. Gaskins sang a song of Norse mythology which was followed by a piano solo "Polacca Brilliant" by Mrs. W. T. Sherer.

GOOD PRICES PAID FOR OLD TOBACCO

Cold Weather Seems to Make But
Little Difference About Farmers
Bringing in the Leaf.

The tobacco crop is being quietly gathered in at most of the market points in a movement that is steadily reducing the remnants in growers' hands. Prices are a trifle more moderate than prevailed during early December, but the crop is slowly being lifted. Our quotations indicate that some of the better grades are being sought after now as well as last for export demands. If the present movement were to continue for a few weeks the crop would be fairly well in packers' hands says the Wisconsin Leaf Tobacco Reporter.

Old tobacco of all descriptions are in good demand and packers are selling down closely. C. L. Culton has disposed of about 800 cases of '98 during the week in moderate sized lots. F. H. Pease & Son sold 72 cases to a Chicago dealer. H. W. Bremen of Philadelphia, picked up about 800 cases of '98 while here last week, mostly from the growers' hands, and a 1000s lot of Will Parish of Stoughton. Sales of old leaf reaching us are:

CHILDREN BURN TO DEATH.

Four Lost Their Lives by Fire—Lewis
Isboro, N. Y.

White Plains, N. Y., Feb. 3. Four children, the eldest 5 years old, were burned to death at noon Thursday at Lewisboro, about two miles east of Cross river. A farm laborer, Warren E. Wims, with his wife, Lida, and their four children lived in a house which contained two rooms and an attic. The children were left alone in one of the rooms before an open fire. The mother had gone to the woods to get firewood, and as she was about to return she saw the house was on fire. She rushed back and tried to rescue the children, badly burning herself in the attempt. Soon the house was in ashes. The bodies were recovered Friday. All were burned beyond recognition.

Women Fire Fighters in Sweden.

In the little town of Nasso, in Sweden, the firemen happen to be women, however paradoxical that sounds. The place is only a little village, and four enormous tubs constitute the "water works." One hundred and fifty women make up the fire department and one of their duties consists in always keeping the tubs filled with water. The women are fine workers, it is said, and know how to handle a fire with as little confusion as possible.

"The Mill Cannot Grind
with Water That's Past."

This is what a fagged out, tearful little woman said in telling her cares and weaknesses. Her friend encouraged by telling of a relative who had just such troubles and was cured by Hood's Sarsaparilla.

The little woman now has tears of joy, for she took Hood's, which put her blood in prime order, and she lives on the strength of the present instead of worrying about that of the past.

A Great Cut IN Jackets

Quality and styles considered it is the greatest cut in prices that has been made. We have 130 high class Jackets for women on hand and offer them without reserve at just 1/2 of the former prices. Do not confound these Jackets with the ordinary run of garments that are being advertised at half price.

Such a Chance...

To buy Jackets so well made and of such excellent cloths and so well lined is rare indeed. Many of them are lined with Skinner Satin, guaranteed to wear for two years.

A \$10.00 Bill...

Will buy a Jacket that sold for \$20, and you know what that means at this store.

A \$5.00 Bill...

Takes a \$10 Jacket. Think of the saving.

Capes...

Of these we have shown all the season values that have made competitors stagger. Time after time women have looked here first, then ransacked the town to try and do better, only to return satisfied that they could not find Capes that approached ours for sterling worth.

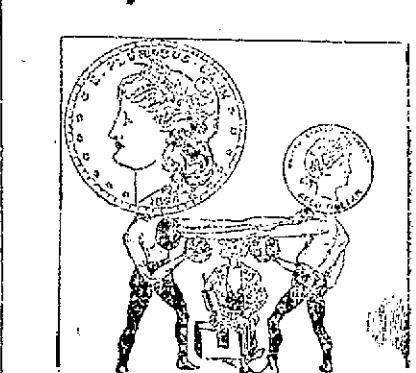

We Are Not...

Offering Capes at half price, but we are offering them very low, both Cloth and Fur Capes. Our assortment of Capes is very good and at present prices like gold dollars for 90c, as we could not buy them today at the figures we are selling them for.

You Ask Why???

Because the cloth and plush they are made of are both so much higher, like many other things.

UNDERWEAR TO AUSTRALIA

Lewis Brothers of this City Doing Much Business With the Australians

Lewis Brothers of this city, have just shipped a good sized order of underwear from their factory to parties in Australia. Lewis Brothers make many shipments to foreign lands during a year's time.

In Memory of Isaac C. Brownell

Another link in the fraternal chain of Odd Fellowship has been broken and another beloved member of our order has been called to cross the dark river to that home from whence no traveler returns. In the sudden and unexpected death of Brother Isaac C. Brownell, which occurred on the eighth day of January, 1900, our Lodge has lost one of its most valued and esteemed members, the community a good and respected citizen and his family a kind loving and affectionate husband and father.

In view of their irreparable loss we do hereby extend to the grief stricken widow and to the children of our deceased brother our kindest sympathy in their sad bereavement.

Resolved that this report be spread at length upon the lodge journal and a copy under seal of the lodge be sent to the family of the deceased and that it be published in the city papers. And that the lodge charter be draped in mourning for a period of thirty days.

Respectfully submitted,

PRITCHARD IN THE RACE.

North Carolina's Senator Is a Candidate for the Vice-Presidency.

Raleigh, N. C., Feb. 3.—Senator John C. Pritchard will go to the republican national convention with the southern delegates, practically unanimous for him for the nomination for vice-president. Vice-President Mitchell of the National Republican league, who has letters from prominent republican leaders in every southern state agreeing to support Mr. Pritchard for the vice-presidential nomination, is authority for this statement.

Agreement with Germany.

London, Feb. 3.—In the house of commons Friday the Rt. Hon. William Brodbeck, under secretary of state for foreign affairs, stated that the German government has undertaken to see to it that nothing contraband of war shall be shipped by Germans to South Africa. The British government has agreed that German mail steamers shall not be interfered with except under the gravest suspicion.

Bard Nominated for Senator.

Sacramento, Feb. 3.—Thomas R. Bard of Ventura was Friday night declared the caucus nominee of the republicans for United States senator. He received the votes of fifty of the eighty-five republicans in the legislature. This does not insure his election, as sixty-one votes are necessary for that, but it does mean that Dan McBurns is beaten.

Miners' Wage Scale Signed.

Indianapolis, Feb. 3.—Under the wage scale signed by the United Mine Workers of America and the Interstate Operators' association in this city Friday night the men employed in the soft coal mines of the principal coal producing states will get a general advance of 21.21 per cent.

THE "PAVING DECISION."

The supreme court's ruling in the case involving the legality of Janesville's street work charter provision will give general satisfaction. The system of charging the cost of permanent improvements to the abutting property may be burdensome in some instances, but any other plan would entail the same condition.

Under the law that Janesville has adopted something can be accomplished. For instance, the street assessment committee recommends that a street be macadamized. A chance is given for protests against the plan. If the council orders the work done, that is the end of it, but if the protests be deemed well grounded, the council can reject the street assessment committee's recommendation.

The law that we are now operating under compels the property owner to pay for the pavement or macadam in front of his own property. He doesn't have to pay a cent for the work done in front of someone else's land. When he settles the bill for the work that improves his real estate, he is through, and will not be required to pay again until the pavement or macadam is worn out.

State Commissioner of Insurance Emil Giljohann, has issued a circular warning insurance agents that any attempt to avoid the payment of legitimate taxes on policies written will be made the subject of legal proceedings. The circular is called forth by a practice that the commissioner believes to be an attempt to dodge the tax on fire insurance policies which are taken out by residents of the state through the local insurance agents.

If Milwaukee people would stop quarreling among themselves and combine their energies for the common good, they would not only have a presidential convention held "in their midst," but the name of their coming carnival would never perish from the earth. As it is now, people say "My! Just look at Miss Milwaukee! She's pretty, and she's smart as a whip, but Great Scott! How she does pull hair!"

Janesville's preliminary political campaign will not be quite so lively now that the street commissioner is to be elected by the common council in the future. The change is for the better, however. The street commissioner has to work under the direction of the council, and the aldermen are held accountable for the work done. It is proper that the council, therefore, should have

something to say about who shall be the commissioner.

Senator Spooner took a hand in the taming of Senator Pettigrew a few days ago, and spoke sensibly. A Washington dispatch says:

Mr. Spooner thought it was about time to draw the line upon this constant and daily suit of Aguinaldo against the United States. He said that no statement of a man in arms against the United States should be placed upon the records of the senate. It would, he thought, be construed as encouragement to those in insurrection against the flag and authority of the United States.

District Attorney Jackson, and City Attorney Rood of Beloit, may well take pride in the fact that the "paving suit" was decided in their favor. The case was of vital importance to all cities working under "general charter law provisions" and the points involved in the case were such as to demand skillful handling.

La Crosse and Madison people are also gainers by the paving case decision. Both cities have ordered extensive improvements under the general charter provisions. Madison has ordered asphalt pavement, around the Capitol square, while La Crosse will put down forty blocks of pavement this summer.

"Progressive Legal Tangle parties" are now the popular thing in Milwaukee. The person who comes the nearest to giving a straight account of the street railway litigation gets a loving cup as a prize.

The supreme court has given the "good roads" movement a substantial lift, and no mistake.

Mayor Richardson and the common council are now also on top.

Kentucky got herself into it, and she must get herself out.

FIGARO'S EDITOR.

Parisian Journalist who has Angered Count Castellan.

Here is M. Ferdinand de Rodays, the editor of the Paris Figaro, who has been conducting a cable discussion with Count Boni de Castellane, the husband of Anna Gould. Soon after Count Castellane sailed from France on his present visit to this country the Figaro published a story about him in which it was declared that the count had become a financial bankrupt through reckless expenditures and stock gambling. It was hinted that his visit to New York was made for the purpose of refilling his purse from the Goulds' treasure boxes.

When Count Castellane landed and heard of this, he was furious. Al-

though a little man, he has the habit of talking as big as though he weighed a ton. At first he announced that he would sue M. de Rodays for 100,000 francs, but when the great Paris editor replied that, as the count had rejected on the commercial standing of the Figaro, he should bring a counter suit for twice that amount the very little count talked of slapping the editor's face and of running him through with a rapier.

Although this may be merely bombast, it is not entirely impossible that when the count returns to France he may engage in another of those amusing and harmless affairs, a Parisian duel. His "affair of honor" with M. Henri Turot is still remembered. The "honor" of the combatants was satisfied when M. Turot received a slight flesh wound in the forearm.

But Editor de Rodays may decline to make such a spectacle of himself. He is rather busy most of the time conducting a most successful journal. His newspaper is probably the most enterprising of the Parisian sheets, and it makes a specialty of acquiring libel suits.

IS A THING OF THE PAST.

Long-Horned Steer Took Too Much Space and Held Too Decided Opinions.

Ten years from now the visitors at the stock yards in Chicago will look at the massive horns nearly six feet from tip to tip that hang over the doorways of offices and hardly be able to believe that they were taken from the head of a "beef or ter" on the Texas ranges, and that hundreds of thousands of cattle with such horns once ran half wild on the ranches and plains of the Lone Star state. For the passing of the long-horned, long-legged, uncertain colored and still more uncertain tempered Texas steer is a thing of today, and in his place one finds a stockily built, red or roan animal, with short, stubby horns, or no horns at all. The Texas steer of today is not properly descended from the Texas cattle of the past. He has simply supplanted the others on the ranges, and the former animal has either migrated farther south or has gone out into space and is no more. The improvement—as it most certainly is—has been brought about in many ways. The first great change came when the cattle man decided that car space that could be filled up by good, salable beef, was more profitable than that taken up by the picturesque horns of the Texas steer, and began to dehorn the yearlings and young steers. More could be gotten into a car, as they could stand closer together. It was but a step to then begin to improve the quality by crossing the cows with fine bred bulls, Durham, Hereford and Angus, and the Texas steer of 1900 will compare very favorably with the cattle in Missouri. He has taken on weight, and will average 100 to 150 pounds heavier than in former days.

"The Place of Fire."

The place of fire is a spot on the peninsula of Apheron, on the west coast of the Caspian sea. It is considered sacred by the Guebres and Persian fire worshippers, who visit it in large numbers, and bow before the holy flames which issue from its bituminous soil. It is about a mile in diameter, and from its center, in clear, dry weather, creeps forth a blue flame, caused by the ignition of naphtha, which shines with great brightness by night.

Tons of Louden Death.

Forty million rounds of small-arms ammunition, 11,000 rounds of shrapnel, Lydite and common shell, 851 boxes of fuses and forty boxes of pistol ammunition were recently dispatched to the seat of war. This is one of the largest consignments of ammunition ever sent from Great Britain.

WOMAN'S DANGER. Nervous Prostration, Low Vitality, Female Weakness.

DR. GREENE'S NERVURA

MAKES WEAK WOMEN STRONG AND SICK WOMEN WELL.

The Great Health-Buider, Nerve-Strengthenor, and Vital Restorative for Women.

From the burning flames of womanly weakness does Dr. Greene's Nervura rescue suffering women. How women suffer—patient—cheerful—enduring—while underneath they conceal a volcano of misery which would put a man in bed. We don't believe there is a woman in the world who does not need Dr. Greene's Nervura to make her well and to keep her well.

I had such pains darting all over me, and have had St. Vitus' dance. My menstruation stopped entirely; in fact, I went through everything that flesh is heir to and live, so no one can wonder that I feel so thankful for my health. I hope others will find out about Dr. Greene's Nervura as I did, in time, as every one in my neighborhood thinks I have been raised from the dead, or, nearly so, as they know what Nervura has done for me. I thank Dr. Greene for his wonderful medicine, and if any lady wishes to hear more from me, and what this medicine did for me, I will be glad to explain, if she will enclose a stamp in her letter to me.

If you wish medical advice, it may be had absolutely free, by calling or writing to Dr. Greene, 82 West 14th St., New York City. Here your troubles will receive scientific diagnosis and sympathetic consideration. All consultations, by letter or personally, are confidential.

SOCIETY DANCES WITH LIGHTS OUT

Rush Lyceum High School
Club Introduced an In-
novation Last Night.

WALTZED IN THE DARK

First Event of That Kind in
the History of the
Bower City.

Both Onlookers and Participants De-
clare That the "Dance in the Dark"
Was a Realization of Ecstasy and
Delight—A Dancer Gives His Ex-
perience During the Progress of the
Waltz—It Was Simply a Lark,
and They All Enjoyed It.

The Rush Lyceum society of the
Janesville High school, last night intro-
duced a dancing innovation, that prom-
ises to raise a commotion. Society
voluptuaries in the east and west have
agitated "the dance in the dark" for
some time; but there has been some
hesitancy in its adoption, and so far as
it is known it has not been put into prac-
tice. It remained for the Janesville
High school boys and girls to put this
delightful theory into effect.

With East Side Odd Fellows' hall
darkened so that it was impossible to
distinguish another a foot away, fifty
couple danced last evening to the strains
of a ravishingly beautiful waltz with co-
other sense employed except that of touch.

An enthusiastic Gazette reporter
characterizes that waltz as something
"immense" and states that "thunderous
applause" of delight greeted the per-
formance, both from the onlookers and
participants. It was a novelty rare and
sweet and the dancers insisted on an
encore.

Persuaded to the general and eager de-
mand the Imperial orchestra played a
long encore entitled, "Love's Dream
After the Ball." When the floor man-
agers shouted "lights on" it was found
that fully fifteen minutes had been con-
sumed in the second torpescence
event in the dark.

All were unanimous in their praise of
the "lights out" part of the program.
Even those who found it necessary to
sit out during the event and encore
praised the unseen delights of the
dance.

"I never felt so deliciously happy and
contented in my life," said a dancer. "It
seemed as if I was floating in air. The
music sounded afar off and came sweet
and low. It thrilled me with ecstasy. I
happened to have a good dancing part-
ner and as we floated in the darkness
she murmured, 'Oh my isn't this love-
ly.' Lovely! I guess it was and you
can count me in on any dance in the
dark' program hereafter."

An onlooker said the scene was
unique and interesting. "There was no
sound," he said, except the music, the
rustle of a silken skirt, an occasional
happy laugh or a deep gurgle of satis-
faction. As the dancers swept by it
seemed to be a spirit world with only
the sense of hearing in evidence. There
was nothing out of the way that I saw.
The boys and girls behaved themselves
like ladies and gentlemen. It was a
new experience to them and they en-
joyed it immensely. I think the fad
has come to stay and will be a feature
in every well regulated dance."

When the suggestion was first made
to have the lights turned out certain
members of the committee thought the
plan "looked bad." They thought that
interested parents would not think well
of the scheme and especially the fathers
and mothers of the young ladies. The
greater portion of those in attendance
last evening were scholars in the schools
whose ages average about eighteen
years.

A member of the committee of ar-
rangements said today:
"As far as I am concerned I don't
care what the public say. We only
tried the plan for a novelty and I don't
see where any harm resulted. This talk
about several couples 'spooning' in dif-
ferent portions of the hall when it was
dark is a lie circulated by a class of
people who have nothing else to talk
about. I have also heard it said that
many rushed for the comfortable chairs
in the dressing room just as soon as the
first gas jet was turned out. This also
is a lie. The dance in the dark was
orderly and proper and we are not
ashamed of it. It was done for a lark
and we all enjoyed it."

FRESH MUSHROOMS.—The simplest way
to cook mushrooms is usually the best way,
and this may be broiling a quantity in
butter and serving in a little cream sauce.
These simple ways may be varied by sea-
soning with sherry, maitre d' or lemon juice.
Any meat stock may be used to stew them
in, but many of the mushrooms are very
juicy, and their flavor must not be lost by
drowning them with too much liquid. When
used for sauces, they may be cut into pieces,
when dried and powdered, they make excel-
lent seasoning for sauces. They may be put
into a saucepan with butter, lemon juice
and cooked for five minutes, stirring fre-
quently, then cover to keep them white.
Lemon juice keeps them white, though it
somewhat destroys the flavor.

of molasses, one teaspoonful of salt, one
teaspoonful of all kinds spice, one egg, beat
all together, add one cupful of water or sour
milk, with one teaspoonful of soda stirred
in and beat enough to make quite thick.
One cupful of raisins and currants and a
small quantity of citron. This makes two
medium loaves and it will keep for weeks.
WATER CRESS AND BEET SALAD.—Cut
cold boiled beets into cakes, break in pieces
some water cress, mix with a French dress-
ing and garnish with olives. For French
dressing mix together one tablespoonful of

JAMES CLARK LIED OF LIVER TROUBLE

EARLY SETTLER SUCCUMBS AT THE COUNTY FARM.

Conducted a Cigar Store Here for Many
Years—Also Worked at the Black-
smith Trade—Death of W. F. San-
born—Funerals Held This After-
noon in the city.

James Clark, one of the early resi-
dents of Janesville, died yesterday after-
noon at 4:15 o'clock at the county poor
farm. Cause of his death was a compli-
cation of diseases brought on by liver
trouble. Mr. Clark was sixty-four years
of age and leaves a wife and family. For
many years he made Janesville his home
and at one time was prosperously en-
gaged in the retail cigar business op-
posite the post office. Later he engaged
in the blacksmith business and for a
number of years followed the trade. One
of Mr. Clark's sons, George Clark, is
now a soldier in the Philippine Islands.

Some years ago, knowing that he
could not live long, Mr. Clark sent a re-
quest to ex-mayor John Thoroughgood,
asking Mr. Thoroughgood to see that
his funeral was held from Trinity
church. Mr. Thoroughgood kindly
agreed, and in consequence, the funeral
will be held tomorrow afternoon at 3
o'clock, from Trinity church.

Richard W. Rumrill

Richard W. Rumrill died at his home,
51 Cherry street at 3 o'clock this morn-
ing, having been a sufferer from paraly-
sis for the past two years. He was born
in Pittsfield, Vermont, June 7, 1824, and
came to Wisconsin in 1844. He was
married to Adeline T. Vaughn on Dec.
1, 1846, and settled on a farm in the
town of Porter. Three children were
born to them, two of whom are living,
and reside in this city. George H. and
Emma S. In 1889 he left his farm and
moved to Edgerton where they lived for
seven years. In 1891 Mr. Rumrill re-

NEW ROCK COUNTY MAP

W. W. Hixson & Co. Will Issue a Very
Complete Work in a Short Time.

A new map of Rock county is soon to
be placed upon the market. The work
is now being done by W. W. Hixson &
Co., a firm that has been in the map
making business for over fourteen
years.

The map will be 42x47 inches, mount-
ed on cloth and covered by townships.
The county will be represented on the
scale of 1 1/2 inches to the mile and show
the location of streams, lakes, cities, vil-
lages, schoolhouses, churches, town-
houses and residences, public roads;
also locating the farms, giving the num-
ber of acres and the name of the pres-
ent owners, wherever it is possible to do
so.

The drawings will be verified by per-
sonal canvass of the towns, after the
drafts are made and the map will be as
accurate as it is possible to make one.

Such a map has been long needed. It
should hang in every school house and
business place in the county, and will
also be of great value to farmers and
citizens generally.

Messrs. Hixson & Co. have published
maps of Waushara, Racine, Kenosha,
Outagamie, and other Wisconsin coun-
ties, and have worked extensively in
other states. Their work has been first
class.

The price of the map will be \$6, which
is a very reasonable charge, considering
the character and magnitude of the
work necessary to produce it.

It will be sold by subscription, and
canvassers will soon start out. The
work will be ready for delivery in a
short time. People who wish may send
orders to W. W. Hixson & Co. in care of
The Gazette office, or give them to Mr.
Hixson's agents when they call. Payment
will be made on delivery.

FRANK GOODWIN HOME DESTROYED BY FIRE

MRS. GOODWIN SAVED ONLY TRUNK AND CONTENTS.

Careless in Leaving Towels Too Near
the Gas Stove—Mrs. Goodwin
Was Overcome by the Smoke—The
Piano and Furniture Destroyed, But
Are Insured.

Fire at 4:45 o'clock this morning
totally destroyed the Frank Goodwin
residence and contents, 71 Chatham
street. The dwelling was insured with
Carter & Morse for \$300, while on the
contents there was an insurance of \$500.

Failure on the part of Mrs. Goodwin
to extinguish the flames on a gas stove
resulted in the igniting of towels that
were hanging near. Then the flames
soon found their way to adjoining wood-
work and in a short time the entire rear
portion of the dwelling was afire.

The home is a one story structure and
at the time of the fire Mrs. Goodwin and
child were alone. At 3 o'clock this
morning, Mrs. Goodwin being obliged to
leave the city, Mrs. Goodwin prepared
an early breakfast. In their kitchen
they use a gas stove. This morning
after Mrs. Goodwin had made coffee on
removing the pot from the stove she
neglected to turn out the blaze.

After a hurried breakfast Mr. Good-
win left. His wife being tired, she never
thought about the lighted stove, went
to an adjoining bedroom sought rest.
After a few minutes she smelled smoke.
On opening the kitchen door she was
horror-stricken to find the room filled with
flame and smoke. Then she turned to
saving her child and what valuables she
could reach. She succeeded in saving
only a trunk filled with clothing and
valuables.

Neighbors were then aroused but it
was too late to save anything. Mrs.
Goodwin was overcome with smoke but
soon rallied. The department respond-
ed promptly but on their arrival the
dwelling was one sheet of fire.

With the furniture was destroyed a
valuable piano. The alarm was turned
in from box 13 at 4:53 o'clock.

LATE NEWS BY TELEGRAPH.

CAN'T OFFER MEDIATION.

Provisions of the Hague Treaty Stand in the Way.

DAY IN HOUSE AND SENATE.

Mr. Allen Continues His Endeavor to Have Secretary Gage Explain Quay Case Comes Up Next Wednesday—Pettigrew to Talk for Hours.

Washington, Feb. 3.—A persistent and perhaps concerted effort is being made to induce the government to take the first step toward a practical application of the mediation provisions of the Hague conference treaty to the war between Great Britain and the Boer republics. Not only are resolutions adopted by public meetings and by permanent organizations looking to that end being received at the state department, but the president and the secretary of state are getting scores of letters from individuals all over the country urging the administration to seek to bring about the termination of the bloody struggle.

The statement attributed to Senator Mason of Illinois that Montagu White, the Transvaal's private agent in America, has been informed by the secretary of state that this government could not offer mediation because the Hague treaty had not been ratified by the United States senate, does not fully or fairly represent the position of the government in the matter. In the treaty, all the signatory nations bound themselves to an observance of an international rule of which little has been said and its importance and extent almost entirely overlooked.

Senate Proceedings.
In the senate today Mr. Allen (pop. Neb.) offered a lengthy resolution for the immediate appointment of a special commission of nine senators to make a complete investigation of all dealings and transactions between the treasury department and the National City bank of New York and the Hancock National bank, or any other national bank since March 4, 1897. The resolution went over.

At 2 o'clock the financial bill was laid before the senate, but no senator was ready to speak on it.

Mr. Chandler, chairman of the committee on privileges and elections, gave notice that he would call up the Quay case on Monday next, but after some colloquy he changed the notice till Wednesday next.

The resolution offered yesterday by Mr. Pettigrew for the printing of a paper entitled "The Philippine Commission" was laid before the senate, the presiding officer, Mr. Frye, stating that it would go to the committee on printing.

A number of minor bills were passed, among them one making the salary of the postmaster of Washington, D. C., \$6,000 per year, and another appropriating \$60,000 for a military hospital at Fort Leavenworth.

Mr. Pettigrew offered a resolution declaring that "We watch with deep interest the heroic effort of the South African republics against cruelty and oppression, and our best hopes go out for the full accomplishment of their liberties." He gave notice that he would speak on it next Monday.

The senate at 2:50 went into executive session and considered for an hour the international peace treaty, but took no action on it. At 4:05 the doors were opened and the senate adjourned until Monday.

Work Done in the House.

The senate bill authorizing the treasury officials to abate light and tonnage duties on vessels flying the Cuban flag was passed by the house. Most of the afternoon was spent in consideration of the Indian appropriation bill in committee of the whole, without completing it.

The house held a night session, but nothing was done. Mr. Talbert of South Carolina demanded the presence of a quorum, saying no pension bill should pass the house without a quorum. This stopped all proceeding and at 10 o'clock p. m. the house adjourned.

No News of the Mananense Since She Left Manila, on Dec. 8.

Washington, Feb. 3.—Many inquiries have been received at the war department relative to the safety of the transport Mananense, which left Manila for San Francisco on Dec. 8, and has not since been heard from, although several vessels which left Manila after her have reached San Francisco in safety. So far as is known at the war department no officers or enlisted men were embarked on the Mananense for the return voyage. Her officers and crew were not employees of Uncle Sam, but were furnished by the owners of the vessel, which was only chartered for the trip to Manila.

MURDER THEORY DISPROVED.

Mystery of Body Shipped to Sioux City Is Partly Cleared.

Baltimore, Md., Feb. 3.—The man whose body was shipped from Baltimore to Sioux City in a packing box was not murdered. He died at the city hospital here three hours after he had been struck by a trolley car on Dec. 28 last. He was suffering from a fractured skull and a broken right arm and Dr. J. W. Chambers of the hospital staff trephined the skull in the hope of saving the man's life. The operation was ineffectual, however, as the man died three hours after the accident. The following morning the body was taken to the morgue, where it was held for identification. No one appearing to claim it, the city anatomical board awarded the cadaver to the College of Physicians and Surgeons, and the same day was taken from the morgue by attaches of the college, but it never reached the college. Cadavers are scarce in the west, and the police believe the body was shipped from Baltimore to one of the attaches of the Sioux City Medical college.

HIS CREDITORS ARE ANXIOUS.

Summons Issued Against a Wealthy Divorcee at Sioux Falls, S. D.

Sioux Falls, S. D., Feb. 3.—The granting of a divorce at Watertown or Wednesday to Mrs. Alfreda Follette, a prominent New York society woman, who for eight or nine months has had her home in Sioux Falls, had an interesting sequel here Thursday, when creditors, learning that she was about to leave town, placed summonses in the hands of the officers, who so far have been unable to effect an entrance to the dwelling which she had been occupying. Mrs. Follette is a niece of J. J. Van Alen, the millionaire whose appointment by President Cleveland as minister to Rome was rejected by the United States senate or the alleged ground that the office was given in return for a \$50,000 contribution to the democratic campaign fund. Her father is a prominent New York manufacturer of printing presses.

SOCIAL LION FALLS.

A. H. Gildersleeve, a Chicago Society Man, Is a Fugitive.

Chicago, Feb. 3.—Alexander Haviland Gildersleeve, who has been lionized and entertained by the swifdom of Chicago for the past two months, disappeared Wednesday, taking with him the proceeds of numerous robberies and leaving his friend and sponsor, William Carpenter Camp, to pay a lot of debts he guaranteed. Mr. Camp also lost jewels belonging to his wife valued at \$1,000. Pawn tickets for these valuables and many more were found in Gildersleeve's trunks, which he left at the Auditorium annex, in his hasty departure on a Michigan Central train Wednesday night. Gildersleeve is said to belong to a prominent family at Boughkeepsie, N. Y., and is a nephew of Judge Gildersleeve of the New York Supreme court.

INDIANS DYING BY DOZENS.

Fatal Smallpox Epidemic on Colville Reservation.

Tacoma, Wash., Feb. 3.—Smallpox is killing Indians in dozens in the Colville reservation. The mining town of Republic, on the northern part of the reservation, has armed men guarding every trail leading from the south, to prevent infected Indians getting entrance and spreading the disease. Conditions among the Indians are appalling. Despite the heroic efforts of the reservation physician, eight to twelve Indians are dying daily. It means death for an Indian to attempt to force his way north from the stricken districts. Several have attempted it, but were turned back after looking down the barrels of Winchester rifles.

Nervous People

That Dr. Williams' Pink Pills for Pale People have cured obstinate cases of locomotor ataxia, partial paralysis, and St. Vitus' dance, is the best evidence that they will cure all lesser nervous disorders, because the principle in the treatment of all nervous diseases is the same. Nervousness is a question of nutrition. Food for the nerves is what is needed and the best nerve food in the world is

Dr. Williams' Pink Pills for Pale People

Mrs. Annie H. Magee, of Port Austin, Michigan, says: "My daughter, Jean, was always a delicate child, had stomach trouble, nervous debility and general weakness. She had to be taken out of school and kept from all study for nearly five years. About three years ago she began taking Dr. Williams' Pink Pills for Pale People, and I am happy to say they have helped her to become a healthy, happy girl who no longer needs medicine of any kind. It scarcely seems possible she can be the same one who a few years ago was a delicate, almost a hopeless, sufferer."

Dr. Williams' Pink Pills for Pale People contain, in a condensed form, all the elements necessary to give new life and richness to the blood, and restore shattered nerves. They are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' Dance, sciatica, neuralgia, rheumatism, nervous headache, the after-effects of the grip, palpitation of the heart, pale and sallow complexions, all forms of weakness either in male or female.

Dr. Williams' Pink Pills for Pale People are sold by all dealers, or will be sent, postpaid, on receipt of price, 50c. a box or six boxes for \$2.50 (they are never sold in bulk or by the 100) by addressing Dr. Williams Medicine Company, Schenectady, N. Y.

THE SPRING FASHIONS.

Peeps at the Thin Goods We Will Wear Next Summer.

Every day is a new day, yet it is so like yesterday that one could scarcely define the difference in them, and this is just how it is with the new spring fashions. They are just like the fashions of last spring with a very few points of difference.

There are the dainty thin goods, and these will be covered with delicate lace and such other trimmings as one may desire. Organies, dotted swisses, plumeis, nainsook, dainty, khaki, linen lawns and zephyr ginghams, percales and cotton crepons without end are among the new wash dresses, and all are old acquaintances in new colors and rather new patterns.

The percales are particularly pretty. White with black dots makes the prettiest kind of gowns for morning and shirt waists. Polka dots are seen everywhere, even on the velvets and sarah, china and India silk and several of the light flannels.

Of washable goods the counters are full, and, as I said, there is nothing really new among them. Washable silks there are in abundance, some of them exquisitely pretty and some of them so ugly that they are "awfully swell and stylish." There are three or four new weaves in light silks and innumerable ones in wool and silk, some of them thin and some thick, some firm and others flexible and so open as to appear like grenadine.

There are also grenadines in dozens of designs, with the old favorite "iron frame" always leading the list. This made up over colored linings is one of the most pleasing of them all.

In the black goods for summer wear there are china crapes, crepons, gauzes, chiffon, veilings and silk crapes made waterproof. These are mostly in black and are intended for mourning. Yet made up over bright colored linings nothing could be prettier, the shading brought about being very beautiful and the effects so elusive and changing. These are to be trimmed with a little lace, and here and there a suspicion of the bright color beneath shows to the outside. Veilings are to be among the most fashionable of all these dainty dark stuffs unless present signs fail. Veiling makes deliciously soft and graceful dresses, especially for the young. There are veilings in the pastel tints as well as black.

Forwards bid fair to be the popular silks for next summer. They are print-

woolen. A most elaborate costume was made of that. It consisted of a long redingote open in front over a dress of the same.

The front of the skirt was lapped in such a way as to represent three skirts with stitched edges. The panne velvet vest and facings were dotted with tan, and the whole was a stylish costume. It was said to be imported from a famous Paris house, but I take some of these statements with a large sized grain of salt.

HENRIETTE ROUSSEAU.

A DIVA'S DAUGHTER.

Emma Nevada's Beautiful and Talented Little Girl.

Little Mignon Palmer, the 13-year-old daughter of the prima donna who is known in the stage world as Emma Nevada, but who in private life is Mrs. Palmer, is the talented daughter of a talented mother. Already her voice gives promise of future richness.

Besides this, the young miss is something of an author and an artist. Mignon is not really little. She is a big, rousing girl who is rapidly developing into a very beautiful young woman. She is full of health and vigor and sees all things through youthful eyes as in "the glory and the freshness of a dream."

Mignon does all things well. Her mind knows no mediocrity. She paints, she models, she writes and she sings.

MISS MIGNON PALMER.

Those who have heard her singing voice now she will make such an artist as the world has never known. Those who have read her stories stand in wonderment before the output of the child's mind.

Mrs. Nevada says, "My child shall be a singer, and the world will stand still to listen to her." Dr. Palmer, the child's happy father, says, "Our daughter is a genius." Little Mignon herself says, "I love to sing and, oh, I love to write—and tales that make you creep and want to cry—and I love to type-write."

She has traveled extensively. She has moved in a set that has known some of the greatest minds of all Europe. She has been reared in an atmosphere of music. Ambrose Thomas, the composer of "Mignon," is her godfather; Mme. Marchesi, the celebrated vocal instructor, is her godmother. Her future is bright.

A Big Price for Stirrups.

A pair of iron stirrups were sold for \$15,000 at the Porman sale in London. They were made for Matthias Corvinus, king of Hungary, and are partly plated with silver, parcel gilt and chased, each of the outer edges having an exquisite border of translucent cloisonne enamel on gold, six inches high and six inches wide. The work is Italian of the end of the fifteenth or the beginning of the sixteenth century.

The Sirdar's Charm.

The story goes that the Sirdar possesses a charm which comes from India, and which brings him luck wherever he tours. That he is one of the luckiest men in Europe goes without saying. Lord Kitchener "received a telegram of congratulation from the queen on the fact that Mahdism has now been given its final blow. The Sirdar replied, "Your most gracious majesty, the man who does not accomplish his aim is a failure. I have lived to overthrow Mahdism, and the nineteen years I have struggled for its abolition, have now been crowned with success. My mission is accomplished."

Evidence Against Him.

"I am proud to say," said the man with the loud voice, "that I have never made a serious mistake in my life." "But you are mistaken," said the mild-mannered man with the secularly stoop; "you have made one very serious mistake." "I'd like to know where you get your authority for saying so?" "Your declaration is evidence that you have never tried to see yourself as others see you."

Change of Life

These Women were Helped Through Woman's Great Crisis by Mrs. Pinkham—All Middle-Aged Women Should Read Their Letters.

Nine Years of Suffering

"DEAR MRS. PINKHAM:—When I first wrote to you, I was in a very bad condition. I was passing through the change of life, and the doctors said I had bladder and liver trouble. I had suffered for nine years. Doctors failed to do me any good. Since I have taken Lydia E. Pinkham's Vegetable Compound, my health has improved very much. I will gladly recommend your medicine to others and am sure that it will prove as great a blessing to them as it has to me."—Mrs. Geo. H. JUNE, 901 DeKalb Ave., Brooklyn, N. Y.

Relief Came Promptly

"DEAR MRS. PINKHAM:—I had been under treatment with the doctors for four years, and seemed to get no better, I thought I would try your medicine. My trouble was change of life, and I must say that I never had anything help me so much as Lydia E. Pinkham's Vegetable Compound. Relief came almost immediately. I have better health now than I ever had. I feel like a new woman, perfectly strong. I give Lydia E. Pinkham's Compound all the credit, and would not do without your medicine for anything. I have recommended it to several of my friends. There is no need of women suffering so much, for Mrs. Pinkham's remedies are a sure cure."—MAHALA BUTLER, Bridgewater, Ill.

No woman is so healthy but at this crisis in her life she needs advice and help from the most competent source. Mrs. Pinkham will advise such women without charge on request.

Experienced Great Benefit

"DEAR MRS. PINKHAM:—I took Lydia E. Pinkham's Vegetable Compound during change of life and derived great benefit from its use."—MARY E. JAMES, 130 Ceydon St., Bradford, Pa.

Mrs. Harrold Relieved of Pain

"I had pains in my head and back and could not stand on my feet without causing terrible pains in abdomen. I was short of breath and could not sleep. I tried several doctors but none helped me. I read of Lydia E. Pinkham's Vegetable Compound in a paper and before I had taken half a bottle I felt better than I had for months. I have taken several bottles and am now well."—Mrs. R. E. HARROLD, Clinton, Ill.

WINE OF CARDUI

HEALTHY OLD AGE.

LARGE, BENTON CO. AKE., Aug. 4.
I am 49 years old and have been suffering with Change of Life. I had flooding spells so bad that none thought I could live. My husband got me Wine of Cardui and it saved my life. I am like another person since taking it.
MRS. E. B. TOWNSEND.

Wine of Cardui

It is the devout wish of nearly all people to live to a ripe old age. None of us want to die young. This universal desire can be realized if care be taken of the health in early and middle life. A little precaution then will add many years to our existence. Death can be kept away a long time. Happy, healthy old age will be the lot of the woman who promptly corrects the ailments which afflict her sex. In youth, Wine of Cardui will take the female child safely over the dividing line between girlhood and womanhood. As a wife she needs it to help her through the trials of pregnancy and childbirth with as little discomfort as possible. At the Change of Life it will help her over the dangerous place that appears in her pathway between 40 and 50. Then will come many years of truly blissful existence. She will grow old slowly and gracefully. To the last she will preserve that charm and beauty which are always characteristic of perfectly healthy grandmothers.

GOV. GOEBEL STILL LIVES.

The Sorely Wounded Kentuckian
Fighting Hard for Life.

Continued From page 1.

ing that there will be a riot if Walker is harmed.

Rumor Goebel Died Wednesday.

A most remarkable rumor that has gained some credence is to the effect that Mr. Goebel died at 12:40 o'clock Wednesday, and that his death had been kept secret by his friends until the democratic members of the legislature could meet and ratify the election of Goebel and Beckman, which it did Friday afternoon. This story is not now believed, even in republican circles, though the departure for their homes Thursday of the four eminent specialists from Cincinnati and Louisville, who had been attending Mr. Goebel, gave a tint of truth to the rumor.

There has been a slight improvement in the general condition of Mr. Goebel since Thursday, according to his attending local physicians, who add that this does not by any means intimate that he is out of danger.

Democrats Make Laws.

During the session of the democratic members Friday several bills of minor importance were introduced, this action being taken, it is supposed, in order to make the meeting have a legal aspect. It is believed here that the democratic members of the legislature will attempt to meet from day to day until dispersed by the troops.

One of the republican leaders in the senate said that the general assembly would surely be called to order at London Tuesday, and a quorum would be present.

"How is it possible for you to get a quorum up there, when all the democratic members are in revolt?" he was asked.

"You must not ask me too many questions," was the reply. "We will meet at London, a quorum being present. I think there will be but one short session, the legislature adjourning back to Frankfort."

It is inferred from this that Gov. Taylor intends to have his troops arrest the democratic members of the general assembly and carry them to London. There is no doubt that Taylor is very determined, and that he is far from having weakened his position because of any step the Goebellites have taken.

Activity in Louisville.

Louisville, Ky., Feb. 3.—The republican leaders are doing some hustling from this end of the line, and it would seem as if they had suddenly transferred their base of operations from Frankfort to Louisville. Several of the leading spirits, with ex-Gov. Bradley at the head, arrived here Friday afternoon, and since then secret conferences have been held, attended by the ex-governor, Judge Yost, Capt. Sweeney and Mr. Edelin, all the lawyers for the republican side in the gubernatorial contest. While everything has been done to prevent the newspapers from learning about the meeting it has leaked out that Judge Evans of the United States court will be applied to for an injunction to restrain the Goebel people from deposing Gov. Taylor of his property rights.

It is said the application will be made under the fourteenth amendment to the constitution of the United States, which declares that no citizen shall be deprived of his property without due process of law. The courts all over the country have held that the emoluments of office is a property right, and it is claimed that it comes under the provision of the constitution. A constitutional question being involved in the attempt now being made to unseat Taylor, as he claims, without due process of law, the United States Circuit court has jurisdiction and the manner of bringing the question before the court by injunction proceedings. Judge Taft is the judge of this circuit, but he is absent from the state.

The law says, in the absence of the circuit judge the district judge has the same power as the circuit judge. This will give Judge Evans jurisdiction in the case, and it is said that the injunction proceedings will be filed immediately after the assembling of the legislature at London, which time it will be made plainly evident how far the Goebel people intend to push their claims.

Shot Down on the Road.

Whitesville, Ky., Feb. 3.—William S. Wright, one of the most influential and popular men in Letcher county, was assassinated on Boone creek, about twelve miles from this place, Thursday night. Five balls from a Winchester rifle pierced his body, either of which would have proved fatal.

Col. Colson Still in Bad Shape.

Frankfort, Ky., Feb. 3.—The condition of Col. David G. Colson, who has been overlooked by the papers since the attempted assassination of Senator Goebel, is not at all satisfactory to his physicians. He is still at the King's Daughter's hospital here, and is suffering intense pain from his shattered arm.

Tall Men Scarcer.

The directors of the Great Northern of England have issued a circular letter to the station agents stating that in future the standard height for porters in the passenger department shall be five feet six inches, and in the goods department five feet four inches. This is a considerable reduction, forced by a scarcity of taller men.

Rest for Railroad Employees.

The Delaware, Lackawanna & Western road has a rule to the effect that its employees must rest eight hours out of every twenty-four, and it is absolutely enforced. This has been criticised under the theory that it was an interference with individual liberty. The road defends its action not only from the standpoint that scientifically a man requires that much relief from labor, but also that when an accident occurs one of the principal points in fixing the responsibility is whether the men accountable for the disaster were being overworked by the railroad.

Old-Time Surgery.

A grim souvenir of an old-time war was on view in a cutler's window in the east end of London recently. It is an ebony-handled saw, which, according to an inscription on a brass plate attached to the instrument, was used by a surgeon of the British army to amputate the limbs of wounded soldiers at Blenheim, Malplaquet and Ramillies.

It was one of these experimental farmers, who put green spectacles on his cow and fed her shavings. His theory was that it didn't matter what the cow ate so long as she was fed. The questions of digestion and nourishment had not entered into his calculations.

It's only a "tenderfoot" farmer that would try such an experiment with a cow. But many a farmer feeds himself regardless of digestion and nutrition. He might almost as well eat shavings for all the good he gets out of his food. The result is that the stomach grows "weak," the action of the organs of digestion and nutrition are impaired and the man suffers the miseries of dyspepsia and the agonies of nervousness.

To strengthen the stomach, restore the activity of the organs of digestion and nutrition and nourish the nerves, use Dr. Pierce's Golden Medical Discovery. It is an unfailing remedy, and has the confidence of physicians as well as the praise of thousands healed by its use.

In the strictest sense "Golden Medical Discovery" is a temperance medicine. It contains neither intoxicants nor narcotics, and is as free from alcohol as from opium, cocaine and other dangerous drugs. Don't let a dealer delude you for his own profit. There is no medicine for stomach and blood "just as good" as "Golden Medical Discovery."

"I can say to you, one bottle of your 'Golden Medical Discovery' has cured me sound and well, after suffering two long years with stomach disease," writes W. H. Braswell, of McAdenville, Gaston Co., N. C. "My health is worth all the world to me. I will praise you as long as I live."

A Detailed Map of Rock County . . .

Work is now in progress on a new wall map for Rock County. In size it will be 42x47 inches, mounted on cloth, and each township (of which there are twenty) will be neatly colored. The county will be represented on the scale of 1½ inches to the mile and will show the location of streams, lakes, cities, villages, school houses, churches, town houses and residences, public roads and railroads. It will also locate the farms, giving the number of acres and the name of the present owners wherever it is possible to do so. As fast as the drawings of the townships are completed they are verified so that the map will be as nearly correct as possible. The work will be of great value to business and professional men and farmers, and should find place in every school house in the county. The last wall map of the county was made a great many years ago, so that this new one will fill a long felt want.

The Price is \$6.00.

Only enough of the Maps will be printed to fill orders. This fact should be borne in mind by those interested. Agents will begin the work of canvassing at once; orders may be given them and may also be sent to us in care of The Gazette office. If you will send in your name a representative will call and give more information if necessary.
